the need for a better understanding of the role location plays in economic life was first and most famously made explicit by

bertil ohlin in 1933 however it is only recently with the development of computer packages able to handle complex systems as well as advances in economic theory in particular an increased understanding of returns to scale and imperfect competition that ohlin's vision has been met and a framework developed which explains the distribution of economic activity across space this book is an integrated non mathematical first principles textbook presenting geographical economics to advanced students never avoiding advanced concepts its emphasis is on examples diagrams and empirical evidence making it the ideal starting point prior to monographic and journal material contains copious computer simulation exercises available in book and electronic format to encourage learning and understanding through application uses case study material from north america europe africa and australasia

the european economic crisis has been ongoing since 2008 and while austerity has spread over the continent it has failed to revive economies the media have played an important ideological role in presenting the policies of economic and political elites in a favourable light even if the latter's aim has been to shift the burden of adjustment onto citizens this book explains how and why using a critical political economic perspective and focusing on the case of ireland throughout ireland is compared with contemporary and historical examples to contextualise the arguments made the book covers the housing bubble that led to the crash the rescue of financial institutions by the state the role of the european institutions and the international monetary fund austerity and the possibility of leaving the eurozone for europe's peripheral countries through a systematic analysis of ireland's main newspapers it is argued that the media reflect elite views and interests and downplay alternative policies that could lead to more progressive responses to the crisis
