the seemingly perennial eurozone crisis has been front page news for several years now but some aspects do not make the media coverage in crisis and migration attention is geared away from the crisis as a protracted but acute phenomenon that will eventually come to pass instead the contributors pose the possibility that the crisis may be a symptom of a long term chronic decline of the european union in relation to other parts of the world the authors analyze the current economic situation and its effects and implications on migration and migration policy alongside the more senior authors the book features a number of contributors who represent a new generation of scholars likely to be prominent in the field of migration studies in years to come

child sexual abuse by clergy within the roman catholic church has emerged as a social and political discourse over the last three decades the analysis here specifically focuses on the establishment conduct and outcomes of the extensive public inquiries of australia although inquiries in other jurisdictions are also discussed unlike criminal or civil processes although they may be inquisitory in nature public inquiries emerge from a specifically political context and are a tool of governance embedded in a larger context of governmentality understanding the broader political and cultural contexts of public inquiries is important then in understanding their value and effectiveness as justice processes especially for victims of csa by clergy what is interesting about public inquiry is that it situates victims of csa by clergy outside of criminal and civil justice processes and recognises a different politicised relationship between victims as citizens the state and catholic institutions where abuse has occurred at the cutting edge of disciplinary and methodological understandings of the interconnections between the church state and families his book explores the dynamics of the emergence and politicisation of victims of csa by clergy their expressions of resistance and the legitimisation of their voice in public and political spheres

winner of the 2015 fwsa book prize the body is a site of impassioned fraught and complex debate in the west today in one political moment left wingers academics and feminists have defended powerful men accused of sex crimes positioned topless pictures in the tabloids as empowering and opposed them for sexualizing breasts and undermining their natural function at the same time they have been criticized by extreme right groups for ignoring honour killings and other culture based forms of violence against women how can we make sense of this varied terrain in this important and challenging new book

alison phipps constructs a political sociology of womens bodies around key debates sexual violence gender and islam sex work and motherhood her analysis uncovers dubious rhetorics and paradoxical allegiances and contextualizes these within the powerful coalition of neoliberal and neoconservative frameworks she explores how feminism can be caricatured and vilified at both ends of the political spectrum arguing that western feminisms are now faced with complex problems of positioning in a world where gender often comes second to other political priorities this book provides a welcome investigation into western politics around womens bodies and will be particularly useful to scholars and upper level students of sociology political science gender studies and cultural studies as well as to anyone interested in how bodies become politicized
