the quran is the sacred text of islam for muslims it is the word of the one god the quran was revealed to the last prophet muhammad ﷺ from the year 610 until his death in 632 by the angel gabriel ﷺ according to the quran allah is the author of all the sacred books of the three monotheistic religions that are islam christianity and judaism he thus revealed the gospel to the penultimate prophet jesus and the torah to the prophet mooses thus we read in verse 3 of surah 3 it is he who has sent down the book the quran to you muhammad with truth confirming what came before it and he sent down the taurat torah and the injeel gospel however islam considers that with the exception of the quran all holy books have been falsified by man verse 75 of surah 2 goes in this direction well do you hope moslems that such people the jews will share the faith with you while a group of them after hearing and understanding the word of allah falsified it knowingly this present work is an english translation of the meaning of the verses of the quran by abdullah yusuf ali

what was the name of noah s son who did not survive the flood why do pharaoh and haman build the tower of babel for what reasons does mooses travel to the ends of the earth who is the horned one who holds back gog and magog until the day of judgement these are some of the questions answered in the oral sources and quran commentaries on the stories of the prophets as they are understood by muslims designed as an introduction to the quran with particular emphasis on parallels with biblical tradition this book provides a concise but detailed overview of muslim prophets from adam to muhammad each of the chapters is organized around a particular prophet including an english translation of the relevant verses of the quran and a wide selection of classical medieval and modern muslim commentaries on those verses quran commentaries include references to sunni and shi i sources from spain central asia the middle east and africa an extensive glossary provides an annotated list of all scholarly transmitters and cited texts with suggestions for further reading this is an excellent book for undergraduate courses and students in divinity and seminary programmes comparisons between the quran and bible and among jewish christian and islamic exegesis are highlighted oral sources references adapted from apocryphal and pseudepigraphical works and inter religious dialogue are all evident throughout these stories of the prophets this material shows how the quran and its interpretation are integral to a fuller and more discerning understanding of the bible and its place in the history of western religion

everyone who has read the quran knows that it is truly difficult to understand for people who face it for the first time today after reading the quran several dozen of times i intuitively understand that its structure and presentation are ideal special and unique and as a consequence breathtaking when reading the structure of the quran is unique and very different from ordinary books where there is an introduction an outcome and an epilogue this is a natural barrier

to understanding its wisdom thus one of the tasks of this work is to build the first bridge for people who just started to get acquainted with islam to present some ayats of the quran in such a way and in such an order that people reading it not only muslims at the first stage would understand its main messages to the world another task is to give muslims a holistic picture of some of the issues that i think are important finally the third task is to warn people against committing sins and encourage them to do good deeds it should be noted that i highlighted separately ayats relating to the universe the sending of the quran the purpose of people s existence on earth the qualities of the prophet muhammad pbuh in addition i have singled out the challenges from allah and help to the needy finally allah s address to atheists modern jews and christians and the principles of warfare because there is a great misunderstanding in this world on these issues what ayats of the quran are not included in this work firstly the stories of individual prophets peace be upon them and in particular four of the five largest called ulu al azm in addition to the prophet muhammad pbuh nuh noah ibrahim abraham musa mooses and isa jesus secondly the ayats of the quran which form a detailed set of islamic laws and relate to issues on which there are no contradictions in the islamic world such as the fasting and hajj to mecca thirdly the ayats that describe in detail the universe the reward of the workers and the punishment of sinners this book contains 718 ayats the quran has a total of 6236 ayats in 114 surahs

even those who dispute the quran do not question that it is in its original form this enables one to travel back in time to take a closer look at the prophet muhammad who is amongst the most towering personalities in history this book avails that priceless chance to reconstruct his life based on evidence as well preserved as the quran it also explores the quran s message on issues ranging from justice and women to the treatment of other religions to see if the disconnect between certain islamic practices and the modern world is based on misreading of the quran among other topics the book assesses the claims

that the quran is a scientific miracle contains no inconsistencies and is a masterpiece of literature and also discusses the controversial incident of the satanic verses in light of disclosures in the quran the effort is to gain a holistic understanding of possibly the most influential book of all time the author has chosen to write under a penname seeker of the truth but remains optimistic of disclosing his identity in the future he does not doubt that a vast majority of muslims would allow him to express the views noted in this book which are founded on the quran sedq uses many different translations of the quran to present the material as clearly and sensibly as possible bottom line this is an intriguing engaging look at a religion still misunderstood by many in the west it is bound to provoke heated debate blueink review a searching look at the teachings of the quran sedq takes up several common assertions about the quran and subjects them to a scholarly thorough and often refreshingly cant free contemporary analysis that takes modern social norms and literary scholarship into account sedq offers an interpretative look at the quran that curious minds of all faiths will find fascinating kirkus reviews what s the most interesting or important book to come out recently about the islamic world the quran speaks by bahis sedq a hugely important book by a scholar of islam who is to my mind the most sophisticated of all the dissidents in the muslim world he could be the muslim luther if there were only a way to keep him safe ayaan hirsi ali in the new york times

the qur an is the final revelation from god to mankind through the last prophet muhammad peace be upon him the qur an has a wealth of information both worldly wisdom and intellectual concepts providing a code of life for humankind generally and muslims in particular indeed the qur an s miracle lies in its ability to offer something to non believers and everything to believers this book contains 2 of the finest translations of the quran the 1st translation is by yusuf ali and the 2nd translation is a modern easy to understand translation so this book contains both an old and a modern new translation making it

easier to understand for readers it also contains so much information about quran science of a recent research project which proves the quran is a revelation from god the original quran is accurate in the arabic language it s 1 only but in english there are couple of translations of the same 1 arabic quran this book is about the true message of the quran if anyone wants to know what the holy quran actually teaches this book will be the best guidance but in order to know what it explains one must read several translations of the quran but in order to properly understand the quran people must read this book which explains so many information s it made the quran easy to understand for both a non muslim and a muslim even though to properly understand the quran 1 must read several translations but still this 1 book is a great source of information and guidance for any 1 who has or hasn t read the quran this is an honest book of knowledge whether people like or hate islam people should read this book of knowledge to at least properly understand the real quran and islam and the reason why 1 5 billion people of our world follow this unique religion and claim its holy book the quran to be god s last final revelation
