this edited volume is written by and for mental health professionals who work directly with alienated children and their parents the chapters are written by leaders in the field all of whom know how vexing parental alienation can be for mental health professionals no matter how the professional intersects with families affected by alienation be it through individual treatment reunification therapy a school setting or support groups he or she needs to consider how to make proper assessments how to guard against bias and when and how to involve the court system among

other challenges the cutting edge clinical interventions presented in this book will help professionals answer these questions and help them to help their clients the authors present a range of clinical options such as parent education psycho educational programs for children and reunification programs for children and parents that make this volume a useful reference and practical guide

the categories of father mother child sibling and friend occupy successive chapters in this study and reveal the changing nature and value of those roles as played in texts written by a broad spectrum of eighteenth century authors jacket

throughout the past 30 years there have been significant developments in theory and research relating family variables to various psychopathologies the potential importance of such efforts is obviously great given the implications that reliable and valid findings would hold for treatment and preventive inter ventions across a variety of settings and populations the purpose of this volume is to present a critical evaluation of this field of inquiry through a detailed assessment of the theoretical perspectives the methodological issues and the substantive findings that have characterized family studies of psychopathology during the past several decades the book is divided into four parts each con taining contributions from leading researchers and theorists in the field the first part background presents a review of the major streams of influence that have shaped the development and the present character of the field the second part conceptual foundations contains presentations of gen eral models and orientations relevant to family studies of psychopathology in most cases a particular theoretical perspective provides the primary underpin ning of the approach the exception to this format being the family model of david reiss based on the concept of the family paradigm the major objective of this part is to present a broad yet detailed set of chapters that address the conceptual status of the field it is hoped that this material will provide a rich background against which subsequent discussions of specific theories methods and findings can be more fully appreciated

several years ago two of my colleagues and i had the opportunity to interview fritz heider perhaps the most influential theorist in the field of social psychology harvey ickes kidd 1976 during our interview heider affirmed a belief that had guided his career since the 1920s the belief that the study of human relationships is the most important task in which social scientists can engage although many social scientists would profess to share this belief it is nonetheless true that the study of human relationships has been one of the most neglected tasks in the history of the social sciences including psychology what heider found in the 1920s that most psychologists acknowledged the importance of studying human relationships but at the same time tended to focus their own research on more tractable topics such as memory and cognition is still very much evident in the 1980s even within the more specific domain of social

psychology a majority of researchers still choose to address those hybrid topics social cognition social categorization and stereotyping person memory etc that relate most directly to traditional areas of psychological research still other researchers while choosing to study such important interpersonal phenomena as altruism aggression conflict and interpersonal attraction tend to focus so exclusively on these isolated and abstracted phenomena that they fail to provide a more inclusive view of the relationships in which these phenomena occur

learning to assess speech and language disorders and write diagnostic reports may be an overwhelming experience especially when most texts don't cover both topics at once with that in mind a guide to clinical assessment and professional report writing in speech language pathology second edition combines the latest assessment protocols and diagnostic techniques with vital diagnostic report writing tools into a single definitive guide cyndi stein rubin renee fabus and their contributors recognize that clinical assessment is inextricably linked to report writing and have updated this second edition to synthesize the two following the introductory chapters which discuss the basics of assessment and report writing each subsequent chapter focuses on a particular disorder provides in depth assessment tools and presents a corresponding sample report key features an inventory and explanation of formal and informal assessment measures a glossary of key vocabulary sample case histories with assessment tools relevant and useful interview questions each disorder's background and characteristics assessment parameters a differential diagnosis section a model report the accessible format of a guide to clinical assessment and professional report writing in speech language pathology second edition will help students learn how to assess and document speech and language disorders and will also make for a perfect reference for them as clinicians for years to come

this brilliantly argued beautifully written book now with a new introduction by the author uses theories of feminist psychotherapy to present a new model of clinical psychotherapy

organized around the latest cacrep standards counseling theory guiding reflective practice by richard d parsons and najian zhang presents theory as an essential component to both counselor identity formation and professional practice drawing on the contributions of current practitioners the text uses both classical and cutting edge theoretical models of change as lenses for processing client information and developing case conceptualizations and intervention plans each chapter provides a snapshot of a particular theory approach and the major thinkers associated with each theory as well as case illustrations and guided practice exercises to help readers internalize the content presented and apply it to their own development as counselors

a resource for couples preparing for christian marriage cover

this new edition of irene and herbert goldenberg s best selling book takes readers on an examination of the history development training research and interventions of the rich field of family therapy including a basic introduction to family systems theory and the family life cycle framework on each page goldenberg and goldenberg convey enthusiasm for the theories and practices in the field theory is brought to life through transcripts of actual therapy sessions while discussions of cultural diversity examine its implications for family diagnosis treatment research and training this fifth edition provides expanded coverage of cognitive behavioral family therapy and transgenerational family therapy plus three new chapters make family therapy an overview the most current book you ll find in the field

eleven contributions present a diversity of approaches for the family counselor who is not a chemical dependency specialist but who seeks guidelines for successful intervention through family therapy annotation copyrighted by book news inc portland or

wedge s encouragement to look anew at the problems our children have is valuable and expert advice booklist where can parents turn when their child exhibits disturbing behavior and they want to avoid psychiatric labels and drugs pills are not for preschoolers presents a much needed alternative child focused family therapy a brief effective approach that involves family members in the child s therapy a family therapist for more than twenty years marilyn wedge treats children s problems not as biologically determined disorders but as responses to relationships in their lives that can be altered with the help of a therapist parents can now respond to symptoms of adhd depression and anxiety with respectful family prescriptives not prescriptions and wedge brilliantly shows us how easy it can be to understand and implement her pathbreaking approach
